

Navajo County Provider Nomination Form

DirectAccess+ allows you to freely choose your healthcare providers without facing any out-of-network penalties or restrictions. Providers can easily participate in the plan by submitting claims, and all covered service claims will be processed and paid at the highest benefit level, regardless of the source of care. Through ClaimDOC's Pave the Way® program, a ClaimDOC member advocate will reach out to your provider BEFORE your appointment to educate them about your new plan and ensure they have all the necessary information to submit your claims.

To nominate your healthcare providers, please submit a completed form for each provider:

Call a Member Advocate
